Forecast for Monday 27 Feb 2023

Weather: Cloudy with a chance for some light showers throughout. A few cloud breaks are possible, however these will be fairly limited, most likely during the evening and in the west. Feeling cold in the brisk winds.

Chance of cloud-free hill tops above 600m: 60%

Low Cloud and visibility: Cloud will often be above the hills, but with occasional spells down to 600m, mainly during any showers. Otherwise some good views are expected, falling to moderate with any passing shower.

Forecast for Tuesday 28 Feb 2023

Weather: Cloud will continue to move in from the northeast, likely shrouding lower hills than on Monday and bringing showers through the day. Rain showers fairly isolated in the morning, becoming more frequent in the afternoon and evening.

Maximum wind: Northeasterly 30mph.

Chance of cloud-free hill tops above 600m: 20% in east, 50% in west

Low Cloud and visibility: Cloudy through much of the day with bases around 500m, although there should be more in the way of breaks through the afternoon, especially in the west. Good visibility beneath the cloud, but falling to poor or very poor in showers and summit cloud

Temperature: **Valleys:** Plus 3 Celsius, rising to Plus 7 Celsius.
At 600m: Zero Celsius. Rising to Plus 2 Celsius
Freezing level: 700m, rising above the peaks through the day.
